Evans Made Good Average.

Sioux City Stock Journal, 12th.
John B. Evans, of Crystal Lake Stock Farm, held his second annual sale of immune Duroc Jersey bred sows and gilts on Monday afternoon, at his stock farm, just north of Dakota City, Neb. It was a very pleasant day and in spite of the mud a good crowd was in attendance, attracted, undoubtedly, by the blood lines and good individuality of the stock to be sold.
Col. J. R. Thompson opened the sale, but because of a severe throat trouble had to be relieved by his as-

stants, W. H. Nesley and Sterling Stewart. Some very good work was done on the block during this sale.

The top price of the sale was \$350. This figure was reached twice during the afternoon. L. K. Horton, of Allen, Neb., bought a spring gilt, farrowed in March, sired by Grand Model Challenger, for this price, and Henry Kuhl, of Plainview, Neb., paid a like amount for another March gilt sired by Big Sensation. The average for the entire 39 head sold was \$169.50.

M. E. Church Notes.

F. J. AUCOCK, Pastor.
Services Sunday at 11 a. m. and 4 p. m. At the morning service we will have the sacrament of the Lord's Supper. We hope as many members as possible will make an effort to be present.

We hope by next Sunday to have the chorus for the cantata organized. May we again give an invitation to any singers who would like to take part to do so. You can get information from R. E. Evans, Mrs. Sherman, or the pastor. Mr. Evans will take charge of the practice work at present. The cantata is a good one because it has a place for all degrees of singers. It contains many solos for all parts, a quartet, a male quartet, a trio for ladies, and some good chorus work. We are particularly anxious for the young people to help in the chorus work. We will have a preliminary practice next Sunday at 8 o'clock.

The fifth and sixth grades are going to give an entertainment at the school auditorium Friday evening, February 22, at 8 o'clock. It will be a patriotic entertainment. The admission will be 15 and 25 cents, instead of 15 and 20 cents as previously announced. The proceeds go to make another payment upon the school victrola.

Last Friday evening Mrs. Rose chaperoned nine of her pupils to a Y. W. exhibition in Sioux City. Those who went were: Ernest Giese, Lawrence Frederick, Gladys Frederick, Ruth Orr, Geraldine Heikes, Helen Smith and Rosa Perry.

The teachers, Mr. and Mrs. Geo. Leamer, Mrs. S. A. Stinson and Mr. Geo. Wilkins were enjoyably entertained at the Mrs. Belle Barnett home last Thursday evening at a 6 o'clock dinner.

Prof. Linton was a Lyons passenger Saturday. He spent the day visiting the Lyons schools and planning with the school board of that place for next year, having accepted the superintendency of the Lyons schools for the year 1918-19.

The high school people were sorely disappointed Friday when a call came from Ponca saying that the Ponca teams could not come to Dakota City to play basket ball on account of a case of scarlet fever which had just been discovered in the high school. Attempts to get South Sioux City to fill the schedule failed, so the town teams were played. The games were interesting and fast throughout. The boys of the high school were defeated by a score of 44 to 46. The girls of the high school won by a reasonable score. The plans had all been made for a supper at the school for the Ponca people and, in the event of their failure to come, the town teams were invited to supper. A very nice time and a good supper was enjoyed by all. Refreshments were served after the game to all high school people, the players and parents of high school people.

The debate on military training was held in the high school auditorium and resulted in a decision of 2 to 1 in favor of the negative. The judges were Mr. Sherman McKinley, Mr. S. A. Stinson and Rev. F. J. Auckock.

More Than 6,800 Men From the Bell System Are Now in the Army

When war was declared the government asked for skilled telephone men for the signal corps service of the army.

In response to this call, from out of the telephone offices, down from the poles, from out of the cable manholes and from the repair benches, came thousands of Bell men to offer their services to the nation.

Fourteen battalions of these Bell men were accepted and are now in active military service. Many of them are already in France. Others are in camps ready to embark.

The Bell System is paying these telephone men in the army signal corps the difference between the wages they formerly received and the amount they now get from the government.

One man out of every six from the maintenance and construction forces of this company is now in the army.

A large proportion of the volunteers from the Bell System are technically trained men. Such employees are hard to replace.

In spite of the war and what it has meant to this company in the increased number of telephone messages to handle, the enlistment of so many of our trained men, the shortage of equipment, the scarcity of labor and the high cost of telephone materials—

In spite of all these obstacles, we are meeting the needs of the public for telephone service in a remarkably successful way.
